By Chris Docker

Createspace, United States, 2010. Paperback. Condition: New. 2nd ed.. Language: English . Brand New Book ***** Print on Demand *****.(Please note that a 2015 updated edition is also available). Hailed in 2010 as the most complete source available, Five Last Acts II details options and methods for rational suicide in the event of unbearable and unrelievable suffering. Bringing reassurance, knowledge and hope, and the strength to face an uncertain future. (Please note a 2015 version is now available.) Even with modern technology, not all ends are good ones. Although palliative care continues to make great strides, the final hours or days of some people are so difficult that they elect to take matters into their own hands and end things sooner rather than later. Once that decision is taken, lack of knowledge, planning or preparation can result in even greater suffering. Five Last Acts collects the wisdom of multi-disciplinary research, workshops and developments worldwide in a major new volume. The body of the work is written in easy-to-understand language to offer a practical guide for every reader. Technical explanations are reserved for the appendix. Five Last Acts provides the reliable options for the last act in your own play. Feedback...
