We have managed to overcome and even come up with solutions to major world problems like famine, plague, and war. This book Homo Deus discusses the evolution of man over the years; from simple-minded beings who believed in God to intelligent man who questions God s existence and would rather rely on Science and data computation to get their answers. Humankind has always thought of themselves as more superior than the other species and believed that their existence has great meaning and meant for a higher purpose. P.S. Are we bettering ourselves, or self-destructing? P.P.S. This is a ZERO-RISK investment. Should you find this book unworthy of the original coffee price of \$3.99, get a REFUND within 7 days!
