CAREER AS A LANDSCAPE ARCHITECT (PAPERBACK)

DOWNLOAD

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.SOME OF THE MOST INTERESTING careers available today can be found in the field of landscape architecture. A landscape architect plans and designs land areas for parks, recreational facilities, private homes, campuses and other open spaces. The architect makes these outdoor spaces functional and attractive while ensuring they exist in harmony with the natural environment. The profession calls for creative and artistic skills as well as technical knowledge. Landscape architects play a vital role in protecting the environment. They make sure their projects meet the needs of the people who visit, while preserving nature itself. Their projects aim to reduce pollution and conserve scarce water. In addition to conceiving and helping to create man-made settings, landscape architects also restore natural places disturbed by human intervention, such as wetlands, mining areas and estuaries. They also work on historical preservation and cultural projects. Landscape architects earn on average almost \$70,000 annually, and salaries are expected to increase. There are currently more than 20,000 jobs, with almost 15 percent growth in employment expected over the coming decade. Jobs can be found in cities large and small, in every state and many countries around the world. Many landscape architects work for private consulting firms, academic institutions, nonprofits and government agencies. Others own their own firms, either alone, or in a group partnership with other professionals, which can include residential and commercial architects. They collaborate with civil engineers, construction contractors, urban planners, garden designers, and other professionals to create projects that are attractive and useful. It takes at least seven years of education and training before you can receive your license as a landscape architect. You need a bachelor s degree to get started, followed...
