Ask yourself if you are enjoying life to the fullest-in your relationships, career choice, and personal reflection. If your answer isn't yes, then perhaps you need to change your outlook. Respect and Responsibility provides a way to approach life differently. Dietmar Voitel explains that many of us create feelings of dissatisfaction and despair because of how we respond to circumstances and other people. We often react negatively, thinking we're not good enough or the world owes us something. Voitel shows that respect is two-fold. It involves our response to others and how we absorb what is said about us. It's also about openly dealing with our emotions and positively communicating with friends and others. Responsibility centers on how we can actively work in our community and elsewhere to make a contribution. Applying the principles of Respect and Responsibility will give you deep insight into the situations in your life and how they can shape you into a more positive person. Happiness and life-fulfillment can be yours!.
